### Ölçümlerde Kullanılan Metotlarla İlgili Açıklamalar / Explanations About the Methods Used in Measurements

Bütün metotlar için sadece dersi geçen öğrencilerin notları kullanılacaktır. / For all methods, only the grades of students who pass the course will be used.

- G = Bölüm tarafından belirlenmiş olan başarılı sayılabilecek minimum not / G = Minimum grade that can be considered successful as determined by the department
- T = Program çıktısı başarısı için eşik değer / T = Threshold value for program output success
- M1: Öğrencilerin %T'sinin dönem toplamlarının en az G olması / M1: T% of the students to have a semester total of at least G
- M2: Öğrencilerin %T'sinin dönem toplamlarının en az bölümdeki dönem toplamlarının ortalaması kadar olması/ M2: T% of the students of the department to have a semester total of at least that of the department average
- M3: Öğrencilerin dönem toplamlarının ortalamasının en az G olması / M3: Average semester total of students of the department to be at least G
- M4: Öğrencilerin %T'sinin dönem toplamlarının en az tüm bölümlerdeki tüm öğrencilerin dönem toplamlarının ortalaması kadar olması / M4: T% of the students of the department to have a semester total of at least average semester total of all students from all departments

## **Ölçümlerde Kullanılan Metotlarla İlgili Açıklamalar / Explanations About the Methods Used in Measurements**

Bütün metotlar için sadece dersi geçen öğrencilerin notları kullanılacaktır. / For all methods, only the grades of students who pass the course will be used.

- G = Bölüm tarafından belirlenmiş olan başarılı sayılabilecek minimum not / G = Minimum grade that can be considered successful as determined by the department
- T = Program çıktısı başarısı için eşik değer / T = Threshold value for program output success
- M1: Öğrencilerin %T'sinin dönem toplamlarının en az G olması / M1: T% of the students to have a semester total of at least G
- M2: Öğrencilerin %T'sinin dönem toplamlarının en az bölümdeki dönem toplamlarının ortalaması kadar olması / M2: T% of the students of the department to have a semester total of at least that of the department average
- M3: Öğrencilerin dönem toplamlarının ortalamasının en az G olması / M3: Average semester total of students of the department to be at least G
- M4: Öğrencilerin %T'sinin dönem toplamlarının en az tüm bölümlerdeki tüm öğrencilerin dönem toplamlarının ortalaması kadar olması / M4: T% of the students of the department to have a semester total of at least average semester total of all students from all departments

## 5. DEĞERLENDİRME / EVALUATION

### 5.1. PROGRAM ÇIKTILARI ÖLÇÜM SONUÇLARININ DEĞERLENDİRİLMESİ / EVALUATION OF PROGRAM OUTCOMES MEASUREMENT RESULTS

During the 2023-2024 academic year, the undergraduate program in Philosophy (BA Philosophy) had a total of 13 outcomes:

- a. Be able to reconstruct arguments in philosophical and non-philosophical texts and to critically evaluate their soundness.
- b. Be able to communicate and present philosophical ideas and arguments in writing and in speech that communicates clearly to professional and non-professional audiences. Be able to do so both in Turkish and in English.
- c. Be able to engage in self-directed philosophical research that integrates, evaluates, and further develops existing philosophical knowledge.
- d. Be able to characterize and compare basic approaches and positions in the different systematic areas of theoretical and practical philosophy.
- e. Acquire basic knowledge of the history of philosophy and be able to assess its relevance for problems of contemporary culture and society.
- f. Be able to recognize and critically evaluate normative judgments in the light of ethical and social-philosophical approaches.
- g. Acquire adequate research skills in the field of humanities, including the use of libraries, databases, modern methods of scientific thought and international academic literature. To equip students with tools such as mastery of computer software and information technologies relevant to the humanities that will help them develop creative solutions for global challenges .
- h. Be able to apply philosophical knowledge and skills in critical thinking to the solution of social and professional problems in contemporary society.
- i. Demonstrate an understanding of professional and ethical responsibility.
- j. Be equipped to engage in life-long learning, in philosophy and related fields.
- k. Acquire basic knowledge of the methods of natural and social sciences and of history, art, and literature.
- l. Gather experience with work processes, management, and organization in non-academic workplaces.
- m. Take advantage of the campus life where students are engaged in diversity, creativity and commitment outside coursework through artistic, cultural, sportive and intellectual activities.

During the fall semester of 2023-2024 academic year, the following 26 courses were part of the evaluation: PHIL 101, PHIL 103, PHIL 201, PHIL 203, PHIL 303, PHIL 307, PHIL 308, PHIL 401, PHIL 403; COMD358, CS 121, TURK 101, TURK 102, PHYS 180, ECON 221, ENG 101, ENG 102, ECON 103, GE 100, GE 251, MATH 105, MATH 106, MBG 110, HCIV 101, HCIV 102, HIST 200. ( 9 courses offered by the Philosophy Department and 17 extra-departmental courses)

The courses which were part of the evaluation during the fall semester evaluation earned the “sufficient” qualification with following one exception, concerning the course MATH 106. The dimensions under which the performance ratio was not sufficient were : j. And k (see above). One solution for improvement which emerged from discussions with the advisory board was to suggest assessments in collaboration with the mathematics instructors which would incorporate philosophy and critical thinking **explicitly** in their evaluation.

During the spring semester of 2023-2024 academic year, the following 28 courses were part of the evaluation: PHIL 101, PHIL 102, PHIL 104, PHIL 202, PHIL 204, PHIL 301, PHIL 304, PHIL 306, PHIL 308, PHIL 403; COMD 358, CS 121, ENG 101, ENG 102, TURK 101, TURK 102, PHYS 180, ECON 103, ECON 221, GE 100, GE 251, MATH 105, MATH 106, MBG 110, PSYC 100, HCIV 101, HCIV 102, HIST 200. (10 departmental courses and 18 extra-departmental courses.)

For spring semester, **all** courses had the “**sufficient**” qualification.

As a conclusion, the courses included in the measurement and evaluation studies were determined **to have reached their targets and the outputs were overwhelmingly sufficient.**

## 5.2. EĞİTİM AMAÇLARININ DEĞERLENDİRİLMESİ / EVALUATION OF EDUCATIONAL OBJECTIVES

Consultation regarding the 2023-2024 academic year took place in a non-synchronous mode. Dr. Monica Solomon (Philosophy Dept.) contacted each member of the advisory board and gathered feedback either by email or through Zoom interviews.

There was agreement that goal A (“to be able to recognize and analyze abstract problems and arguments in depth”) was successfully accomplished. Concerning goal B (“being creative in the problem-solving process and combining what they know in an original way”), in order to improve the degree to which we achieve it, some suggestions involved suggestions for courses that combine or cut across disciplines.

Goal C (“communicate confidently and argue persuasively”) was considered to have been successfully addressed.

Consultations also agreed on the fact that while goals D, E, F are addressed. For instance, the curriculum is broad and allows students majoring in Philosophy to be better prepared and anticipates careers in other fields or outside academia (such as business administration).

There is, however, room for improvement in addressing D (“communicate confidently and argue persuasively”) and F (“taking a rational attitude by making logical judgments in the decision-making process”) such that the students are better prepared to address the jobs of the future. For instance, some dedicated multi-disciplinary courses focused on decision-making and/or critical thinking need to be developed. Additionally, there needs to be an explicit and future-oriented integration of new AI technologies.

As a consequence, for the next year, the department plans to address and incorporate the following concerns:

- The offer of elective advanced courses for majors seems to be too sparse. As mentioned in the previous report (2022-2023 academic year) a more diverse course offering in PHILOSOPHY is required.
- This is especially necessary as history of philosophy courses, applied ethics, or philosophy of religion have either poor or no representation in the offerings. A necessary addition would be courses focused on critical thinking more broadly and decision making. Another possible suggestion concerns projects akin to Philosophy for Children (philosophy outreach more generally)

Such an increase in course offered at upper level would also attract more students from other departments at Bilkent University to follow philosophy at post-graduate level (through an MA).

- One advisory board member also expressed the important suggestion that preparation of graduates should go **beyond** a high-quality education provided in English and it should address explicitly in their targets other necessary skills: communication, professionalism, discipline, self-confidence, etc.
- While the evaluation was positive concerning the level to which educational objectives are achieved, there was further stress on gathering data and feedback concerning Philosophy alumni. This point has been also stressed in the previous 2022-2023 report. This report should include: completion percentage, timeline to graduation, etc. For instance, we are interested in answering the following: What were their trajectories after graduation? Is there any method of gathering feedback on their educational course at Bilkent with the benefit of hindsight? etc. In the same line, it was suggested to form a network of alumni which would be beneficial to future students in their job search.
- Another important suggestion was to integrate an **equity** strategy concerning gender representation, disability accommodations, etc. into the undergraduate program and to evaluate the results on this dimension as well, even if it doesn't feature explicitly in the matrix of outcomes.
- Finally, the department needs to consider and develop a strategy for possibly updating their outcomes given the rise of new machine learning applications and the rise of AI in general.
